experience

2014–Now **Khaleef Technologies.**   Lahore, Pakistan/UAE
Mobile Application Developer (iOS+Android)
Successfully established and built software engineering and development company providing solutions to a variety of companies' business and operational needs. In general, responsibilities include:
- establishing a detailed program specification through discussion with clients
- clarifying what actions the program is intended to perform breaking down program specification into its simplest elements and translating this logic into a programming language
- devising possible solutions to anticipated problems
- working as part of a team, which may be established purely for a particular project to rite a specific section of the program
- combining all elements of the program design and testing it testing sample data-sets to check that output from the program works as intended
- conducting testing and installing the program into production reacting to problems and correcting the program as necessary
- evaluating and increasing the program's effectiveness
- adapting the program to new requirements, as necessary
- conducting user-acceptance testing to ensure the program can be used easily, quickly and accurately
- writing detailed documentation for the operation of the program by users and computer operators
- consulting manuals, periodicals and technical reports to learn new ways to develop programs and maintain existing skills and knowledge
- updating, repairing, modifying and developing existing software and generic applications.

2013–2014 **Hybrid IT Services.**   Mesa AZ, USA
Mobile Application Developer (Lead)
As a team lead
- Successfully led team of developers on all Hybrid client software projects
- Start Android applications for clients.
- Enhance IOS applications.

BIG (Big Island Guid) (Android + iOS) Bay Islands Guide - Everything you need to know about the SMBI

Need to know when the next ferry is, or perhaps plan your trip for the next few days? Not a problem.

Want to set a reminder so you don't forget, or simply want to know how much your trip is going to cost? No worries there, either!

Bay Islands Guide is a locally developed app, for the Southern Moreton Bay Islands.

This initial version of Bay Islands Guide for Android contains our exclusive Ferry Planner service. In the coming weeks/months we will endeavour to bring it to feature parity with the iOS version. These will always be free updates.
